Klopotek CLOUD

for Contracts, Rights & Royalties

Experience the future of handling contracts, rights & royalties now, anywhere, anytime

**FREE
4-WEEK TRIAL
PERIOD**

Get the best possible support for all your publishing processes from handling contract documents and managing contract metadata to performing royalty calculations, and organizing royalty accounts:

Using a slick, smart, preconfigured system in the Cloud at genuine low cost. Easy to work with. Proven & reliable. Available 24/7. Unrivaled by any other vendor.

For accurate contract document management & better author relationships. For optimal preparation for royalty calculation periods and faster royalty runs.

For all types of publishers – for you.

Free 4-week trial of a fully configured system with personal customer support

Switch to powerful but easy-to-use software support in the Cloud for all of your essential contracts & royalties processes. Selecting Klopotek STREAM couldn't be easier:

Get a 4-week trial period

Test the system and navigation features

Get training every day for two weeks

**One of our specialists will assist you every step of the way**

Join a Q&A session for more detailed discussion every Friday for 4 weeks

Watch training sessions online to understand all procedures in detail

Join the Klopotek Cloud community to exchange knowledge and share experiences with other users

Following the 4-week trial period, there is a monthly fee for using Klopotek Cloud: To operate this service, you only need a browser on any of your devices; you don't have to pay for any additional IT infrastructure costs.

What will you get?

Choose the best-of-breed approach to managing Contracts, Rights, and Royalties

Klopotek CRR (Contracts, Rights & Royalties) is used for calculating the royalties for more than 1.9 M author contracts on more than Euro 5.0 B publishers' revenue annually. It is the preferred solution of the publishing industry. We contribute to the success of more than 400 publishers with

more than 3,000 imprints, with over 24,800 users, in 140+ locations.

Klopotek CRR guarantees the correctness of your statements. Manual editing of the statements that have been processed by the system is not necessary.

STREAM development follows an exceptionally user-centric approach that creates an unrivaled user experience on top of the functional power of the Klopotek solution. Klopotek Cloud makes available a large number of STREAM web apps via your browser.

How does it work?
State-of-the-art support for your publishing processes at low cost

As Klopotek Cloud makes use of a shared organization and infrastructure, it is a cost-effective alternative to operating a system on premise. Your data is available to you only; our data centers provide a high level of security.

Start working immediately, in an easy way, using a configuration based on best practices; the number of your processes in the Cloud can grow with your business requirements.

STREAM, our modern, cloud-based platform for a great User Experience on any type of device, is operated on a shared instance (available 24/7) providing process optimization and a fast roll-out.

Opting for Klopotek Cloud (standard version) will give you 24/7 access to these STREAM web apps without any configuration effort

Contract 360°
Enables your editors to get a clear overview, as all information about contracts & the associated payments to an author is available in a complete 360° wiget-based dashboard.

Contract Manager
Supports your users in all acquisition processes of intellectual property with a wizard guiding through all steps for creating contracts.

Royalty Accounting Manager
Manage all important details for calculating and managing royalties in one app; see all relevant data at a glance on your dashboard.

Royalty Sales Data Editor
Makes it a simple task for your royalty department to edit & correct erroneous sales lines; single items can be amended manually, while multiple sales lines are updated in a bulk action.

Reporting & Analytics
Make use of predefined reports & data sources for interactive reporting and data analysis tailored to the needs of the publishing industry.
(Renewal License powered by Pentaho)

Author 360°
You will get a complete 360° view on all author information using a configurable, widget-based dashboard.

Royalty Recipient Manager
Manage all important details regarding authors, agencies & beneficiaries – taking into account the laws and rules of author associations in different countries.

Contact Manager
Business partner and address information is available at the touch of a button; update processes of contact data are easy.

Product 360°
As your basic master information center, this app displays all key product information in a complete 360° view with a fully configurable, widget-based dashboard.

Title Metadata Editor
Get your title information easily and quickly into the system, guided by an optimized workflow.
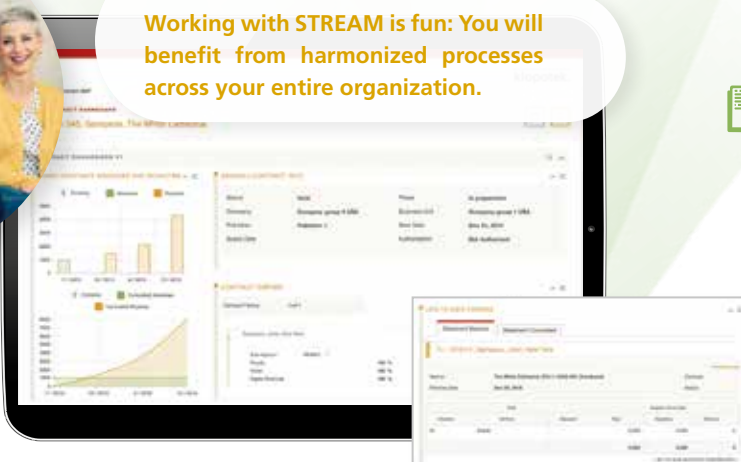

Title Structure Manager
Create your product families.

Working with STREAM is fun: You will benefit from harmonized processes across your entire organization.

Training made easy

During your 4-week trial period, you'll get one hour of daily training for two weeks from one of our experts. A Q/A session concludes each week.

In-depth training can be ordered to take place in the form of personal workshops or as web training sessions.

Klopotek Cloud makes use of STREAM technology. The learning curve for STREAM is minimal, so users are trained and can be productive in short time. Plus, as a result of our unified design approach, if you know how to use one app, you know how to use all apps.

Unrivaled pricing starting from

USD 150 / month / Klopotek Cloud user (standard version)

USD 30 / month / user of the 'read only' option for just accessing data

USD 75 - 250 / month / reporting for all users

Are there more options?
Select add-ons tailored to your individual needs

Klopotek Cloud can also provide a number of additional services to your company (you pay only for what you choose) – get the

full benefit of our Rights Sales Solution for handling your sales offers, contracts, and rights revenue accounting processes.

Authors Online
Let your authors & agencies access this web portal for downloading their statements and thus save costs; your royalty data is safe and reliable.

Rights Sales Solution
Get a clear overview of available rights and track interests & options; always have accurate information at hand; make use of software support for contract negotiations, agreements, and accounting – you'll have more time for marketing your rights.

Component Contracts
Allows you to sell your content in chapters, chunks, or other elements. Your costs for handling metadata will not increase, and products, components, and structures are linked to contracts, so all sales will be handled correctly for the royalty calculation.

Contract Workflow Manager
Free your royalty department from incorrect calculations & errors leading to a high workload: using this app, metadata and contract wording, and versions are kept in sync & integrated.

E-Signature
Enables you to use electronic signatures of your authors for contract management; paperwork & manual archiving is no longer necessary, as all information is stored in the Cloud.

Multi Location, Currency, Language
Perfect if you run several companies: our solution provides support in one instance for global usage (for different countries, metrics, currencies, languages) and handles all royalties correctly.

Write-Off
Displays views on the royalty write-off calculated by the app and allows manual modification (changes will be calculated on the fly); results of automated write-off procedures are available to financial accounts.

Stock Movements
Provide your authors with detailed stock information (as an additional service) on their royalty statement.

Klopotek Analytics for CRR Premium
Allows you to create your own reporting and analysis environment tailored to your individual needs: use your own data sources, customized dashboards & various types of reports; the Klopotek BI & Integration team can assist you.
